

Security & Privacy

Goldbacks have several features to ensure they are a secure and private medium of exchange.

Durable Design

The gold in each Goldback is encased between two layers of protective polymer, making it both durable and flexible for everyday use.

Anti-Counterfeiting Measures

Goldbacks are equipped with state-of-the-art anti-counterfeiting measures to ensure their authenticity. These include micro-printing, UV ink, and serial numbers.

Private Transactions

Goldbacks are physical, not digital, offering you an extra layer of privacy in your financial exchanges.

How to Spend

You can spend Goldbacks at thousands of businesses in the U.S. Here's how:

1 LOOK UP A LOCAL BUSINESS

Visit the "Where to Spend" page at goldback.com to find businesses that accept Goldbacks near you.

2 USE GOLDBACKS AT THE REGISTER

When you're ready to make a purchase, present your Goldbacks at checkout, just like cash.

3 USE THE GOLDBACK CALCULATOR

Available at goldback.com, the calculator can determine the number of Goldbacks due and the change owed. It's updated daily with the current average exchange rate.

4 COMPLETE YOUR PURCHASE

Once the Goldback amount is calculated, exchange your Goldbacks and enjoy your inflation-resistant purchase!

Who is Goldback?

In a world where inflation impacts us all, we're determined to give individuals and communities a better option. That's why we created Goldbacks—a local currency that preserves wealth, offers stability, and supports local economies.

What are Goldbacks?

Goldbacks are a modern currency made with precise amounts of 24-karat gold. They allow you to spend gold on small, everyday purchases. Goldbacks have two distinct purposes:

Protect Your Wealth

While other currencies depreciate, Goldbacks hold their value and protect your purchasing power. They also include advanced anti-counterfeiting features to make them a secure and reliable store of wealth.

Spend Locally

Goldbacks allow you to spend gold easily within your community, strengthening the local economy. They are accepted at thousands of businesses across the U.S.
